

From this week we are starting Aeroo Reports for OpenERP development video howto's series for beginners.

These videos will show basic Aeroo Reports functionality and usage plus some tricks and tips.

Videos will be suitable for experienced OpenERP users, who would like to develop quickly their own reports with ease and developers or OpenERP service providers to overcome limitations of generic OpenERP reporting.

For full listing of video tutorials, please visit [Alistek's YouTube channel](#) .
